

ALICIA BOYD

Candidate for Nettles Island Board of Directors
Lots: 511 & 1100

Dear Fellow Nettles Island (NI) Lot Owners:

I am excited for the opportunity to serve all lot owners and contribute to the collaborative efforts of the Nettles Island Board of Directors by running for a seat on the board.

I am a full-time Nettles Island resident and Florida native. My husband, Daniel and I have been married for 30 years and have 3 adult children. I am a 30 year Miami-Dade County Public Schools retired veteran, and my husband is a firefighter. For the last 18 years of my career I was an Assistant Principal. In my journey, I worked at one of the most challenging schools in the state of Florida. This role has led me to acquire strong leadership skills and given me the opportunity to receive training on conflict resolution, security measures, crisis management, budget and financial management, facility operations, vendor vetting, and contract negotiations.

I am committed to contributing to the NI community by volunteering, joining clubs, and engaging in activities that promote camaraderie. I am a current board member and Florida Condo Board Certified. Currently, I am a member of the infrastructure and communications committee. I assisted with the holiday decorations in the rec. building and volunteered in various holiday events directed by Adam. I am a member of the Women's Club, Cornhole Club, and Yacht Club. I worked with community members in planning and hosting the first July 4th dance hosted by the Cornhole Club.

My leadership experiences and successes enhance my ability to be an asset to the board of directors. I believe in transparency, open communication, collaboration and equitable and fair enforcement of rules and regulations. I do not pledge to have all the solutions; however, my determination, persistence and resourcefulness drive me to find them.

Work Experience: Educator & Administrator, Miami-Dade County Public Schools 1992-2023

- Assisted in moving low performing schools to a "C" and above by designing goals and strategies that attain high proficiency rates, increase community involvement and maximize operational resources.
- Used the IPEGS evaluation system to improve the quality of instruction, increase student learning, and provide a collaborative process that promotes professional growth, instructional effectiveness, and improvement of overall job performance.
- Used technology programs to organize and share information efficiently
- Mentored aspiring leaders
- Prepared and presented school budget
- Managed school operations and facilities
