"I'm at the Gathering Grill most days for lunch, SEE YOU THERE"

About me:

Married to Sharon for 39 wonderful years.

Graduated Michigan Technological University in 1973, BSME Mechanical Engineering.

Worked as a Manufacturing Engineer in the Detroit area 1973-1987

Ford Motor Co., as Manufacturing Engineer, Program Manager, Purchasing/Quality Engineer 1987-2000

Retired in 2000 and started coming to Nettles Island. Rented initially, purchased lot 1062 in 2014 and stay for 9 months of the year, while traveling in our motor-home during the summer.

Since I retired, I worked on several consulting jobs in 2002-2005. I no longer do consulting and I am available to serve on the BOD seven days a week.

SKILLS AND ABILITIES TO SUPPORT NETTLES ISLAND

For the past two years I have been working on the Architectural, Finance, Landscaping, and Infrastructure Committees. I worked with our project manager to use the lessons learned from the Grand Canal on the current North Canal project. I will continue to investigate the best choices for the safety, cost control and wellbeing of all the owners of Nettles Island.

Advocate for the disabled since 2014.
